

## morePheus<sup>3</sup> FCE - Flight Case Edition

When it comes to the combination of mobility and professional usage, the morePheus<sup>3</sup> FCE is the ultimate fully integrated 3-D projection system on the market. Its flexibility and wide spectrum of options make it the ideal candidate for trade shows, corporate events, team centres or customer presentations.

### A modular approach to 3-D

The morePheus<sup>3</sup> FCE suits all your 3-D projection needs. It comes with a number of configurable modules. You may swap the projection modules, use different 3D workstations and even add a powerful BOSE® sound system to the pack - all modules are neatly stacked and interlocked to create a stunning 3-D experience on the fly.

### Your choice of 3-D screens

With the morePheus<sup>3</sup> FCE the choice is all ways yours. It may be combined with backprojection and front projection screens in all sizes or even in a stand alone configuration. If you have to cope with daylight situations or trade show lighting you might go for a closed back projection extension like the morePheus<sup>3</sup> flex screen. In darker environments a front projection is set up within minutes. All screens are available in various sizes. The choice is yours.

### Complete means complete

When we call a projection system complete, we mean it. The morePheus<sup>3</sup> FCE comes with everything you will ever need to create stunning 3-D presentations. It does not only contain a powerful 3-D projection unit, but also an equally powerful professional 19" workstation that has everything pre installed.

moreMedia HD plays all your 3-D movies and images, may be controlled remotely and we optionally offers access to your corporate's own streaming channel - right from within moreMedia HD.

moreStereo DX/GL turns most 3D-applications you install on the system into 3-D stereo. Plus you may run any native stereoscopic application or DCP players - we truly made it complete.

A 3-D presentation is set up within minutes. Any time. Any where.

If you would like further information about the morePheus<sup>3</sup>, the more3D team stands at your disposal. You can contact us via email under [info@more3d.com](mailto:info@more3d.com) or via telephone under +49 (0)221 677 87 97 0.

With over 10 years of experience, more3D provides unique stereoscopic software and solutions to clients from industry, trade and media and is initiator of the invaZion 3-D Short Film Challenge.

### Highlights

- ✓ 3-D presentation meets mobility
- ✓ Complete configurations available
- ✓ All more3D software pre installed
- ✓ Amazingly fast setup
- ✓ Reseller version on request

# morePheus<sup>3</sup> FCE - Modules in Detail

morePheus <sup>3</sup> FCE - Projector		A	morePheus <sup>3</sup> FCE - Projector Module Basic (e.g. 2 x XGA, 4000 ANSI)	1	INFITEC filter system (removable or integrated) enables projection onto white areas, eliminating need for special projection screens
1		B	morePheus <sup>3</sup> FCE - Projector Module Advanced (e.g. 2 x SXGA+, interchangeable lens, 4000 ANSI)	2	Deluxe polarizing filter (manual push-aside for greater light intensity during 2D presentations) - ideal for larger events
		C	morePheus <sup>3</sup> FCE - Projector Module Professional (e.g. 2 x HD1080p, interchangeable lens 5000 ANSI)	■ 3 INFITEC glasses or 10 polarizing glasses included  ■ depending on projector module: W 541mm x D 694 mm x H 574 mm (Basic/Advanced) or W 541 mm x D 794 mm x H 684 mm (Professional)	
		D	morePheus <sup>3</sup> FCE - Projector Module Professional II (e.g. 2 x HD1080p, interchangeable lens, 7000 ANSI, Dual Light System)		
morePheus <sup>3</sup> FCE - Audio		■ FCE-Flightcase "Audio" including BOSE 2:1 soundsystem, integrated subwoofer, touch sensitive rotary/off- volume control, removable satellite speakers with 2 x 5m audio cable  ■ Dimensions: W 541 mm x D 694mm x H 226mm			
2					
morePheus <sup>3</sup> FCE - Core		■ FCE-Flightcase „Core“ with 4 wheels, of which 2 have brakes, Space for 19" 4HU rack mount PC, 2 x 19" drawers, each 2HU  ■ 19" 3D-workstation with NVIDIA Quadro graphics board  ■ Gyroscopic (motion sensing) wireless mouse and keyboard with 30m range  ■ more3D moreStereo DX/GL, preinstalled  ■ more3D moreMedia HD, preinstalled  ■ power consumption: ca. 600W (on load)  ■ Size: (W 541 mm x D 694mm x H 545mm)			
3					
morePheus FCE – Screensystem					
Aufprojektion		A	■ Mobile high quality silver screen including frame, rubber bands and feet stand  ■ 3D ready non depolarizing material, compatible with linear or circular polarizing, INFITEC filter systems and shutter glasses.  ■ Carrying bag for all components	1	4:3 – e.g. Image size: (W 4000mm x H 3000mm), Frame size: (B 4100mm x H 3100mm)
4				2	16:9 - e.g. Image size: (W 3550mm x H 2000mm), Frame size: (B 3650mm x H 2100mm)
				3	16:10 - e.g. Image size: (W 4800mm x H 3000mm), Frame size: (B 4900mm x H 3199mm)
				4	Other screen sizes are available upon request.
Rückprojektion		B	■ High quality screen material for back projection, including deco frame and foot stands, rear mounted buttons  ■ 3D-enabled, polarization maintaining content, suitable for linear and circular polarizing, shutter glasses or INFITEC.  ■ Projection cover with mounts, minimizes waste light on the screen, fast mountable and black industry grade molton cloth  ■ Carrying bag for all components	1	Screen dimension: 4:3 - Image size: (W 2800mm x H 2100mm), Frame size: (W 2960mm x H 2260mm)
	2			Screen dimension: 16:9 - Image size: (W 2800mm x H 1680mm), Frame size: (W 2960mm x H 2740mm)	
	3			Other screen sizes are available upon request.
